Northeastern University Library has the expertise and tools to support you throughout the

LIFECYCLE OF YOUR RESEARCH

Wherever you are, we can help!

No matter where you are in the research process, or where you’re located in the world, Northeastern University Library is ready to help you and your team:

FIND
resources to inform and enhance your projects.

MANAGE
the details of your research and publishing processes.

CREATE
graphics to clearly communicate your findings.

FULFILL
funder requirements for data and research outputs.

ELEVATE
the visibility and impact of your work.

To learn more about what we have to offer, get in touch with your subject librarian or contact Library-ResearcherServices@northeastern.edu.

Matthew Modoono/Northeastern University

Beginning of the process

Get your research project off on the right foot by utilizing these services:

PIVOT
Find funding opportunities to power your research using the database Pivot.

DATA MANAGEMENT PLANS (DMPs)
Access sample plans and receive feedback from expert librarians on DMP drafts for grant proposals.

FINDING DATA
Subject specialist librarians can assist you in locating data sets that will help inform your work.

STANDARDS AND PATENTS
Receive guidance on locating standards and search for patents that may impact your work.

EXPERT LITERATURE SEARCHING
Consult with a subject librarian whose expertise is in building targeted and comprehensive searches.

During the process

Advance through the research process with help from these library resources:

3D PRINTING
The 3D Printing Studio offers a full suite of fabrication and modeling technologies to support your research.

MANAGE YOUR RESEARCH
Library experts can advise on strategies to ensure the reusability and longevity of your data and other research outputs.

PRESENT YOUR DATA
Get help analyzing, mapping, and visualizing research data in any discipline.

End of the process

Finish strong with these tools to help you present and publish your research:

COPYRIGHT, FAIR USE, AND PERMISSIONS
Leverage the library’s expertise in copyright and fair use determinations, and get guidance on seeking permission to use others’ work.

DIGITAL PROJECTS SUPPORT
Create digital projects and publications using tools like Omeka and Open Journal Systems, with plenty of resource assistance.

ARCHIVE, PRESERVE, AND SHARE YOUR WORK
Your research outputs can have a secure, permanent digital home in our Digital Repository Service (DRS).

ORCIDs AND DOIs
Librarians can facilitate the creation of unique identifiers for researchers (Open Researcher and Contributor ID or ORCID) and research outputs (Digital Object Identifier or DOI).

RESEARCH METRICS
Use research metrics to demonstrate the visibility and impact of your work.
